The Amtekco **AdjuTABLE** Workstation is designed for maximum labor efficiency and to reduce the risk of occupational injuries.

With Amtekco's AdjuTABLE Workstation, you can improve productivity and reduce the stress of employees working at inappropriate heights. With the simple push of a button, you can quickly customize this NSF-approved stainless workstation to the perfect, ergonomically correct working height for any employee. The AdjuTABLE Workstation raises from 28" up to 40" high – and everything in between. Plus, the table comes in three standard lengths.

The table is engineered with an electrical quick-adjust push button that changes heights in seconds. No need for multiple tables. Simply adjust the table during staff changes, or when a specific task requires a different workstation level.

Each durable table can also be topped with our popular NSF-approved poly, creating the perfect workspace for prepping seafood, meat, bakery and more.

Quick Facts:

- NSF approved
- 120 volt power
- Push-button height control
- Ideal prep area for seafood, meat or bakery
- Heavy-gauge 300 series stainless steel
- Top: 5/8" poly or stainless steel
